Bulk Metallic Glasses

C. Suryanarayana, A. Inoue

Bulk Metallic Glasses C. Suryanarayana, A. Inoue

In spite of the large amount of research activity in this subfield of materials science and engineering, there is no single book available that provides background information, methods of synthesis, characterization procedures, properties, and potential and existing applications of bulk metallic glasses. Written in an easy-to-understand style by pioneering researchers in this field, **Bulk Metallic Glasses** is one of the first books to coherently discuss the synthesis, processing, properties, and applications of these unique materials.

The book explores the differences between nanocrystalline, glassy, and amorphous solids as well as the thermodynamics and kinetics and various processing methods of glass formation. It critically compares the different criteria for glass formation, describes the advantages and limitations of experimental methods for synthesizing bulk metallic glasses in assorted sizes and shapes, and examines the kinetics of crystallization/devitrification and the mechanisms of transformations. It also covers the density, diffusivity, thermal expansion, electrical resistivity, specific heat, viscosity, corrosion resistance, mechanical behavior, and magnetic properties of bulk metallic glasses. After presenting a wide array of applications, the book concludes with a discussion on the future of these materials.

The adoption of bulk metallic glasses into existing systems is besieged by many obstacles but due to their interesting combination of properties, future applications may be unlimited. A one-stop resource on all aspects of bulk metallic glasses, this book demonstrates the immense potential of these novel materials. It clearly elucidates the background, detailed methods of synthesis and characterization, structure, and properties of bulk metallic glasses.

From reader reviews:

Keith McLeod:

The book Bulk Metallic Glasses can give more knowledge and information about everything you want. Exactly why must we leave a good thing like a book Bulk Metallic Glasses? Some of you have a different opinion about reserve. But one aim this book can give many details for us. It is absolutely correct. Right now, try to closer using your book. Knowledge or details that you take for that, you could give for each other; it is possible to share all of these. Book Bulk Metallic Glasses has simple shape nevertheless, you know: it has great and big function for you. You can appear the enormous world by open up and read a e-book. So it is very wonderful.

Brian Andres:

Information is provisions for people to get better life, information presently can get by anyone from everywhere. The information can be a understanding or any news even a concern. What people must be consider whenever those information which is in the former life are hard to be find than now is taking seriously which one would work to believe or which one the particular resource are convinced. If you find the unstable resource then you understand it as your main information we will see huge disadvantage for you. All those possibilities will not happen throughout you if you take Bulk Metallic Glasses as your daily resource information.

Chery Taylor:

In this era which is the greater person or who has ability to do something more are more treasured than other. Do you want to become considered one of it? It is just simple solution to have that. What you are related is just spending your time not much but quite enough to possess a look at some books. One of the books in the top listing in your reading list is usually Bulk Metallic Glasses. This book which is qualified as The Hungry Hillsides can get you closer in becoming precious person. By looking up and review this book you can get many advantages.

James Weil:

As we know that book is significant thing to add our information for everything. By a e-book we can know everything we want. A book is a pair of written, printed, illustrated as well as blank sheet. Every year had been exactly added. This reserve Bulk Metallic Glasses was filled concerning science. Spend your free time to add your knowledge about your research competence. Some people has diverse feel when they reading a book. If you know how big selling point of a book, you can truly feel enjoy to read a publication. In the modern era like at this point, many ways to get book you wanted.
