Family Support as Reflective Practice

Family Support as Reflective Practice

Family support is an increasingly important strategic approach to welfare services for children and families. This invaluable resource for all professionals engaged in the development and delivery of these services is underpinned by reflective practice values and structured around four themes: * conceptual frameworks and vocabulary (defining) * policy and organisational structures and processing (planning) * tools for creative practice (doing) * approaches to evaluation (measuring). Contributors from around the world provide international perspectives on core issues in family support. These include the importance of community, the role of statutory and voluntary agencies, youth advocacy, culturally appropriate family support, child protection, disability services and effective means of evaluation. Providing a combination of clear theoretical frameworks and practical guidance, with clear 'how to' messages and a strong emphasis on evaluation, this book will be of interest to social workers, care staff, teachers, community development and police officers, students, policy-makers, evaluators and all those working in all areas of family support.
