This comprehensive ebook provides authoritative information and practical advice from the world's health experts about Middle East Respiratory Syndrome Coronavirus (MERS-CoV), an emerging novel coronavirus similar to SARS. Health officials are concerned that this virus could threaten human health worldwide.

The continued reporting of new cases indicates that there is an ongoing risk for transmission to humans in the area of the Arabian Peninsula. New reports of cases outside the region raise concerns about importation to other geographic areas. Nosocomial outbreaks with transmission to health-care personnel highlight the importance of infection control procedures.

Contents include:
