The unconscious, according to contemporary psychology, determines much of our lives: very often, we don't know why we do what we do, or even exactly what we are doing. This realization undermines the philosophical-and common sense-picture of human beings as rational, responsible, agents whose behavior is ordered by their deliberations and decisions. Drawing on the latest scientific psychology and philosophical ethics, *Talking to Our Selves* develops a philosophically viable theory of agency and moral responsibility that fully accounts for the unsettling challenges posed by the sciences of mind.
