The third edition continues to examine the ethical concepts, principles and issues in the administration and organisation of sport that made the first two editions of this textbook so widely adopted. The book approaches the topics from four directions: ethical theory, personal and professional ethics, ethics applied, and future moral and ethical issues. Joy T DeSensi and Danny Rosenberg have enhanced the text by adding two new chapters that help to frame the content in a globalised context. In addition, the references, examples, scenarios, and analyses have been updated throughout the book.
