## **Handbook of Mathematical Tables and Formulas** Richard Stevens Burington

This book has been constructed to meet the needs of students and workers in mathematics, engineering, physics, chemistry, science, and other fields in which mathematical reasoning, processes, and computations are required. The content and manner in which mathematical subjects are taught and used are constantly undergoing changes. The applications of mathematics to many diverse fields continue to grow at an accelerated pace. These and other matters of concern have been carefully weighed by the author in preparing this edition. This text should meet the needs of both the contemporary and the more traditional users of mathematics.
