The horrific result of a genuine practical joke...

The day I fell asleep on my keyboard...

Hi,

Just thought I would share this tragic story with the world. I was working on my university dissertation and was getting close to finishing it. Unfortunately, I fell asleep on my keyboard and produced the mass of text that follows.

This replaced my entire dissertation (that was highlighted at the time) and my so-called friends decided it would be hilarious to save this as my dissertation and also replace my back-up copies...

Enjoy.
