Project Planning and Control Using Oracle Primavera P6: Versions 8.1 & 8.2 Professional Client & Optional Client Mr Paul E Harris

Primavera Systems Inc. originally asked the author to write this book and this publication is ideal for people who would like to gain an understanding of how the software operates up to an intermediate level. It covers Primavera Versions from 8.1 to 8.2 Professional and Optional Client and it explains some of the differences from SureTrak, P3, Microsoft Project and Asta Powerproject to assist people converting from other products. The book is designed to teach planners and schedulers in any industry how to setup and use the software in a project environment. It explains in plain English and in a logical sequence, the steps required to create and maintain an unresourced and resourced schedule. It tackles some of the more complex aspects of the software that the user manual does not address. It highlights the sources of information and the methods that should be employed to produce a realistic and useful project schedule. The book provides advice on how on how the many software options may be applied to projects environments and it aims to teach readers how to plan and control projects created within the software package and stays focused on explaining how to use Primavera to schedule projects by: - Concentrating on the core functions required to set up an enterprise environment and how to plan and control projects. - Providing command lists at the start of each chapter as a quick reference. - Providing a comprehensive table of contents and index of all topics. The book is intended to be used: - As a self teach book, or - A user guide, or - A training manual for a three day training course and the book is a PMI Approved Course.
