## Revolutionary Memory: Recovering the Poetry of the American Left Cary Nelson

*Revolutionary Memory* is the most important book yet to be published about the vital tradition of leftwing American Poetry. As **Cary Nelson** shows, it is not only our image of the past but also our sense of the present and future that changes when we recover these revolutionary memories. Making a forceful case for political poetry *as* poetry, **Nelson** brings to bear his extraordinary knowledge of American poets, radical movements, and social struggles in order to bring out an undervalued strength in a literature often left at the canon's edge. Focused in part of the red decade of the 1930s, *Revolutionary Memory* revitalizes biographical criticism for writers on the margin and shows us for the first time how progressive poets fused their work into a powerful chorus of political voices. Richly detailed and beautifully illustrated with period engravings and woodcuts, *Revolutionary Memory* brings that chorus dramatically to life and set a cultural agenda for future work.
