As the majority of the world's population becomes urban, cities must become centers of learning for young and old. Every person, organization and region needs to get smart to skill up, learn more and build new capacities faster and cheaper than ever. In the long run, education is the economic development agenda. Innovative new tools and schools are making it possible for individuals, organizations, and cities to boost learning outcomes. Most learning innovations occur in ecosystems and these unique environments begin with leadership and an innovation mindset...
