Gregory J. Wallance

America's Soul In the Balance: The Holocaust, FDR's State Department, And The Moral Disgrace Of An American Aristocracy Gregory J. Wallance

At the height of World War II, four lawyers in the U.S. Treasury Department discovered that the highly educated, patrician diplomats in the State Department had covered up reports of the Nazi extermination scheme--and then blocked the rescue of 70,000 Romanian Jews forcibly marched into the Nazi-conquered Ukraine and left to die of starvation and disease. The Treasury lawyers charged the diplomats with being "accomplices of Hitler."

The outrage of the Treasury lawyers--tough-minded New Dealers from Christian, middle-class backgrounds--at the State Department's complicity in genocide precipitated a titanic intergovernmental battle. The stakes were nothing less than the fates of countless European Jews (symbolized by an orphaned girl's struggle for survival in Transnistria), the historical reputation of FDR, and the soul of America itself.

A lawyer and human rights activist and the author of *Two Men Before the Storm*, (about the Dred Scott case), Mr. Wallance uses rarely cited archival documents, memoirs, diaries, and transcripts to construct this gripping, nonfiction Washington political thriller that is a sober warning to world leaders hesitating in the face of genocide.
