Plan lessons from a child-centered perspective!

This innovative resource features more than 1,000 activities using inexpensive, readily available objects to engage young children's senses and build their knowledge of the world through hands-on experiences. Organized into 16 themes and grouped under the areas of literacy, mathematics, science, social studies, physical development, and creativity, the book's unique approach:

- Presents a new and simple way to design hands-on activities that complement any curriculum
- Offers suggestions on how to modify activities to respond to children's developmental levels
- Includes a list of over 60 generic tactile activities suitable for use in any classroom
