Brannock's 'Business Case Analysis' is an excellent primer on the topic. One could have little or no familiarity with the topic and use this book as a competent starting point. Brannock traces the history of business analysis and provides real-world examples. Brannock says in the Preface that "this is the book I looked for everywhere" early in his career---through this book, you need look no further. Excellent and highly recommended." (This review refers to an earlier edition.) (5 of 5 stars) By Aaron Cavanaugh "Should be added to any MBA library" (September 6, 2010) Format:Paperback|Amazon Verified Purchase Hi, This is a great book and should be added to any MBA student library. I am finding it especially helpful in the middle of my program. Brannock goes into detail about some older management studies that I had not been aware of previously. He describes them succinctly and with good detail. The 8 day BCA case in Ch. 1 is very helpful and I can see going back to this book as a resource in the future.
